

Agenda

Project Kick-off Meeting- November 10, 2016

1. INTRODUCTIONS

- Project Team, Planning Advisory Committee and Public
- Discussion of PAC roles and responsibilities
- Overview of project schedule

2. MASTER PLAN PROCESS

The FAA defines the master planning process and approves the project scope and fee. All planning work must conform to FAA standards.

FAA Funding

- Up to \$150,000 per year in general aviation “non-primary entitlement” (NPE) grants
- 10% local match required under current program

FAA Funding Requirements

- FAA Funding is only available for projects that are consistent with FAA design standards. Projects must be included on the FAA approved Airport Layout Plan

FAA Design Standards

- Applicable design standards for an airport are determined by the Design Aircraft, or family grouping of similar aircraft
- The Design Aircraft is defined as the most demanding aircraft that uses an airport and has at least 500 take offs and landings annually

3. CHAPTER 1 – INTRODUCTION

4. CHAPTER 2 – AIRPORT INVENTORY

5. NEXT STEPS

- Next meeting, Forecast/Facility Requirements, March 9, 2017. Public Open House begins at 5:00 with PAC meeting beginning at 6:00 PM.
